Detection interval (minutes)	Detection population	Work time (seconds)	Pause time (seconds)	Description
5	0	0	0	No human detected. System enters stand by mode.
5	1	10	100	min ○○○○
5	5	30	100	low ○●○○
5	10	50	120	med ○○●○○
5	20	60	90	high ○○○●○
5	50	80	90	max ○○○○●

**VI.APP mode operation description:**

- (1) Use the APP to control the device. Put the device in APP mode or radar mode, and the device works according to the parameters set by the APP.
- (2) APP instructions refer to the app instructions.

**VII. .APP Operations and Settings**

To easily use machine, it supports to use mobile phone to control.

1.Download Aroma-Link

- Please enter the App store, Google Play Store or Android App store, then input Aroma-Link and download it.

Aplikace iOS

Aplikace Android

- To configure the diffuser on phone, please scan QR code to download „Aroma-link“ App.

## 2.App connection

• First step, turn on the bluetooth function on your phone.

• Second step, run our Aroma-Link app and choose bluetooth mode. Then click „My Devices“, you will find the device name Smart.A5 (Mobile should be close to machine). • Third Step, click this device and input the password „1234“ (default setting is 1234), the machine will be connected successfully. (Refer to Figure 1 to Figure 4)

Figure 1

Figure 2

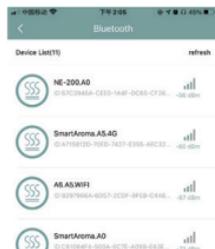

Figure 3

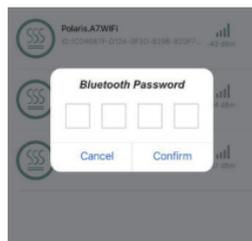

Figure 4

3.Check the working status, remote switch, radar interface switch:

On the main interface of the APP, you can view the working status, working time and pause time of the device, as well as remotely control the switch of the device, and the Radar switch setting interface.

## 4. Work time Setting

Click „Set up“ on the main interface to set working period, support to set five working periods in each day. After setting, please click „Save“ to finish the setting. (Refer to Figure 5 and Figure 6)

Figure 5

Figure 6

Figure 7

Figure 8

5.Click „Set up“ on the main interface to set the working frequency (Refer to Figure 7 and Figure 8)

## 6. Rename device :

In order to manage multiple devices, the bluetooth name of each device can be modified. For example, we can modify the device which puts in the meeting room: „ Meeting Room 01 „.

Modify method: Press the device name „Smart.A1“ in the app (Refer to Figure 9), then enter the name modification interface, after you rename the device, click „Confirm“ to confirm the setting. (Refer to Figure 10)

## 7. Radar setting interface description:

(1) On the APP page, press and hold the radar button and slide to the right to switch the radar interface. (As shown in Figure 11)

Figure 9

Figure 10

Figure 11

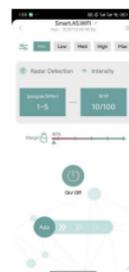

Figure 12

## (2) Radar interface function:
